ROADRUNNER NEWS

Newsletter of the Long Beach Cactus Club
Founded 1933; Affiliate of the Cactus and Succulent Society of America, Inc.

MEETING PROGRAM: Rob McGregor, "Propagation of Cacti and Succulents"

I started this hobby later in life after my family and I bought our house in Riverside. With the ample space our new backyard provided, I began creating a cactus landscape. I gathered plants from local box stores and building supply yards. In order to acquire more plants, in various varieties, I began volunteering my time at Jurupa Mountain cactus gardens. It was there that I met my mentor who aided in my cactus education by insisting I learn the correct scientific names and spelling of plants. On top of helping me learn the naming of plants he encouraged me to make observations on the plants and how they grow. In doing so I was led down the path of propagation. By then, I had joined a few cactus clubs further exposing me to plants and expanding my collection to new heights. Today, I have 5 small structures filled with plants in addition to my front and backyard landscapes designed with my cacti and succulents.

My talk will be a discussion of methods used to save damaged plants, in addition to methods that intentionally inflict damage to promote offsetting. The discussed methods include: bisection, decapitation, and hot nailing. I will also incorporate a hands-on demonstration of each of the previously listed methods. The goal of this discussion is to demonstrate the additional benefits of these procedures beyond forced offsetting.

LOCATION: Rancho Los Alamitos, 6400 Bixby Hill Road, Long Beach, CA 90815. We will meet in the meeting room next to the gift shop. Rancho Los Alamitos is located within Bixby Hill and accessed through the residential security gate at Anaheim and Palo Verde. From the 405 Freeway, exit at Palo Verde Avenue and turn south. From the 605 Freeway, exit at Willow, follow to Palo Verde and turn south.

TIME: Sunday, February 4, 2017 at 1:30 p.m. Setup will be from 12:30 – 1:30. Members will be working in the garden starting at 11 AM. Bring a lunch if you need to.

PLANT-OF-THE-MONTH:

Cactus: Cereus (columnar)

Succulent: Aeonium

REFRESHMENTS: We will follow the alphabet to determine who is to bring the snacks and finger foods. This month, those with last names starting with the letters **G through L** are asked to bring the goodies. Please feel free to bring something even if you don't fall into this group.

FREE PLANTS: A selection of plants are given away each month, one each to first time visitors, new members, and members who have a birthday that month. The rest are raffled off to attending members.

Members are encouraged to donate any plants they would like to pass along or that they think others would like to buy.

LBCC OFFICERS AND BOARD MEMBERS FOR 2018

LBCC PLANT-OF-THE-MONTHS RULES

At the April, 2003 meeting, the following rules were adopted for the Plant-of-the-Month (POM) competition:

- A maximum of three plants may be entered in each category (cactus and succulent).
- There will be three classes for entrants: advanced (blue tag), intermediate (pink tag) and beginner (yellow tag).
- Advanced and intermediate entrants must have had the plant in their possession for at least six months, beginners for three months.
- Entrants will receive 8 points for first place, 6 points for second place, 4 points for third place, 2 points for show/honorable mention (HM) and 1 point for showing a plant that does not place.
- At the discretion of the judges there may be up to three third places in a category. If plants are not deemed to be of sufficient quality, no third place will be awarded.
- For an entrant to receive points, the entry tags must be collected by the person in charge of record keeping for POM.
- At the annual Christmas party, award plants will be presented to the ten highest cumulative point holders regardless of class.

2018 LBCC PLANTS-OF-THE-MONTH

MONTH	CACTI	SUCCULENTS
February	Cereus (columnar)	Aeonium
March	Echinocereus	Haworthia, Astroloba
