## Annual Picnic and Auction

**PROGRAM:** NO MEETING THIS MONTH - BUT BE SURE NOT TO MISS THE ANNUAL PICNIC AND AUCTION. ACTIVITIES START AT 12 PM AND SETUP IS AT 11:30. THE CLUB WILL PROVIDE DRINKS AND LUNCH THIS YEAR.. IF YOU HAVE SOME NICE PLANTS YOU WANT TO SELL, BRING THEM TO THE AUCTION. DON'T FORGET WE WILL HAVE A CREDIT CARD MACHINE AVAILABLE THIS TIME. TELL ALL YOUR FRIENDS!

**LOCATION:** **Dominguez Rancho Adobe**, 18127 South Alameda Street, Rancho Dominguez, CA 90220. Take the 91 Redondo Beach/ Artesia Freeway and exit south on Alameda. Signs for the Adobe are posted on the freeway and on Alameda. Coming from the freeway, the entrance to the Adobe is on the right or west side of Alameda. The meeting will be in the **Carriage House** which is at the south end of the Dominguez Rancho Adobe Museum. It is at your right as you turn off the entry road into the parking area.

**Thanks to our previous speaker: Hank Warzybok spoke about the cactus and succulents he saw on his trip to Organ Pipe National Monument and Big Bend National Park.** Hank was very gracious to step in for our scheduled speaker who had to cancel. A special nod to **Woody** who is also our program chair. The quality of programs at our meetings is second to none!

Welcome to new members **Takehisa and Sayo Matsuda.**

I am happy to report that this year's Intercity Show was again one of the best as reported by both the public and club members alike. The variety of plants were at a all time high. I was delighted to see the high number of Long Beach Cactus Club members participating throughout the show weekend.

. From the show set-up on Wednesday, through the judging on Friday and on through the show all day Saturday and Sunday I saw many of our members assisting customers as well as performing many of the tasks required to maintain a show of this magnitude. Many of us also did our part in the show sales, buying as much or sometimes more than the public. But no wonder, since there were so many rare and unusual cacti and succulents to choose from again this year. This being my last as Show Chair for the Long Beach I would like to thank all the members for the many years for their support and guidance.

## 2008 LBCC PLANT-OF-THE-MONTH RULES

At the April, 2003 meeting, the following rules were adopted for the Plant-of the-Month (POM) competition:

- A maximum of three plants may be entered in each category (cactus and succulent).
- There will be three classes for entrants: advanced (blue tag), intermediate (pink tag) and beginner (yellow tag).
- Advanced and intermediate entrants must have had the plant in their possession for at least six months, beginners for three months.
- Entrants will receive 8 points for first place, 6 points for second place, 4 points for third place, 2 points for show/honorable mention (HM) and 1 point for showing a plant that does not place.
- At the discretion of the judges there may be up to three third places in a category. If plants are not deemed to be of sufficient quality, no third place will be awarded.
- For an entrant to receive points, the entry tags must be collected by the person in charge of record keeping for POM.
- At the annual Christmas party, award plants will be presented to the ten highest cumulative point holders regardless of class.

# GUERRILLA GARDENER

Mailman by day, horticulturist by night, **SCOTT BUNNELL** has waged a stealth campaign to beautify Long Beach, Calif.'s public spaces

**People  
HEROES  
AMONG US**

**F**or 10 years Ramon Arevalo, landscape superintendent for Long Beach, Calif., pondered the mystery of the Loynes Ave. traffic median. Someone was planting flowering cacti and long-tongued succulents on the once-desolate strip. But who?

It was, as Arevalo learned, Scott Bunnell, a reticent, 48-year-old mail carrier who for two decades has secretly dropped seeds and tended flora in 10 spots along intersections

and rail lines in this community of 470,000; he goes anywhere funds and manpower are lacking. "I see this as my responsibility, to make my community better," says Bunnell, who revealed his identity to the *Los Angeles Times*. He's part of a "guerrilla gardening" movement that has sparked complaints in some communities where such activity violates local law. But in Long Beach, where gardening in public spaces is

legal, his efforts make folks happy. Says Alan Bartels, who lives near Loynes Ave.: "I just thought the city was giving it some special love. I'm really impressed and grateful."

# SPECIMEN AUCTION, SHOW QUALITY CACTI FROM THE

## **Caro Desert Collection**

*Saturday October 11, 2008*

Rene and Patty Caro who have been collecting cacti and succulents for the past 15 years have decided to sell off their specimen plants. They were originally residents of Glendale, CA, and after many years decided to move to the Antelope Valley, CA, and for the past three years have lived in Durango, Colorado. During their time in the AV and Durango, they have grown some of the most perfect and beautiful cacti to be seen anywhere. Due to the very cold conditions and the cost of heating two greenhouses in Durango, they have decided that with most of their plants being very large, that they would sell off the big ones to make space for smaller ones. Their area of interest is primarily cacti and Rene has made a special effort of collecting *Ariocarpus*, *Astrophytums*, *Copiapos*, *Gymnocalyciums*, *Turbinicarpus*, *Sulcorebutias*, *Aztekiums*, *Mammillarias*, *Strombocactus*, and many other genera, mostly the rare and unique collector type plants.

The great majority of the plants that will be available were grown from small seedlings and are now large, show quality, perfect specimens. Rene's sources were many of the well know growers such as; *Vince Basta*, *Larry Grammer*, *Dick Hulett*, *Woody Minnich*, *Gene Joseph*, *Victor Turicek*, *Tom Glavich*, *Miles Anderson*, *Peter Sharp*, *Ann Shein*, *Steve Southwell* and *Steve Brack*. Rene and Patty are not into showing plants and yet are often present at the Inter-City CSS and the San Gabriel Winter Show as helpers and observers and thus they know how to grow show quality material. Almost all their specimen plants have been grown in plastic or terracotta pots in a strong light condition at 7,000 ft. elevation. Most of these plants are just waiting for you to stage them and most of them will be show winners.

This auction will be conducted by Woody Minnich of Cactus Data Plants at the home of fellow collectors Dave and Khobe DeLucca at 5344 Greenmeadows Rd. Long Beach, CA. Their home is very near the northeast

corner of Carson and Bellflower. From the 91 Fwy south on Bellflower to Carson and from the 605 Fwy west on Carson to Bellflower. The auction will be presented in a similar manner to the Sobel, Wakamatsu, Hulett, Pickoff, Johnson and Grammer auctions. E-mail, web-site, phone-in and in-person bidding will be accepted. Woody will represent electronic and phone-in bidders unable to attend the physical auction. All plants will be listed and pictured on the web-site and the description list will also accompany this flyer. Lists may also be requested via e-mail or phone and they will be sent electronically to your e-mail address

**Viewing, and the written bidding** will start at 9:30am and the verbal auction will begin at 11:00 am on **Saturday the 11<sup>th</sup>**. **Electronic bids** will be accepted until **8:00pm Oct. 8, 2008**. Those persons wishing to place phone, e-mail or web-site bids should use the following procedure: Indicate your **starting bid** (equal to or greater than minimum), the **increment of bid(s)** and your final **maximum bid**. *Example; Plant X has a minimum of \$50.00, your minimum bid must be equal to or greater than \$50.00. You start with a minimum of ? \$65.00 and you are willing to go as high as ? \$100.00. Your increment bids are ? \$5.00 each and will be applied until you win the bid or another bidder exceeds your maximum of \$100.00.* CDP (Woody) will confidentially represent each electronic bidder and will only inform bidder, with a request following their original electronic bid, if they have been exceeded by other previous e-mail, phone or web-site bidders. Each top electronic bidder will then be confidentially represented at the final verbal physical auction with their increment of bid not to exceed their maximum. Those persons with e-mail, phone or web-site bids that are the final winners of the verbal portion, will be notified following the auction as to which plants they have won. At this time, the winning bidder may make arrangements to pick-up their plants or have CDP mail them. Shipping and handling and postage is estimated at 30% for surface (USA) and 40% for airmail (USA). All payments are to be made to CDP or Rene Caro with cash, check or credit card. Rene and Patty Caro and Cactus Data Plants (Woody) offer no guarantees or refunds, sales are final. All material will be mailed within two weeks of the conclusion of the auction.

The auction list that follows will give each plant with its identification number and description. When placing electronic or phone bids, please refer to each plant by its I.D. number and please check all the details of the description to be sure you are getting what you want. For **phone bids**, please

call and list your selections with CDP at **1-505-281-5884**. For e-mail bids please e-mail with all criteria to [cactusdata@msn.com](mailto:cactusdata@msn.com). For web-site bids please go to [CaroDesert.com](http://CaroDesert.com)
